

National Wikipedia Day

What are some questions you have that your teachers or parents might not have the answers to? Write them down on a separate sheet of paper and then color the boy below! Then, ask a parent to help you look up the answers on Wikipedia to celebrate National Wikipedia Day!

Hey, Mom! What makes the sky blue?

Who was the first president?

How do chameleons change color?

You know, you can find the answers to all your questions on Wikipedia. How about we go look them up together?
