

# Importance of Water

Enhance your understanding by matching the correct pairs

1. Importance of water for	one oxygen and two hydrogens
2. Covalent bond	bonding with others
3. Water molecule makeup	70% of our body
4. Oxygen's charge	negative
5. Hydrogen's charge	universal solven
6. Cohesion	hate of water
7. Adhesion	two non-metal bonding formation
8. Cohesion property	high density
9. Water's first property	love of water
10. Specific heat	positive
11. Water's second property	heat need to raise temperature by 1 degree
12. Hydrophobic	bonding with itself
13. Hydrophilic	regulate temperature for all life forms
14. Water's third property	surface tension
