

3D Mobile Solar System Craft Handout

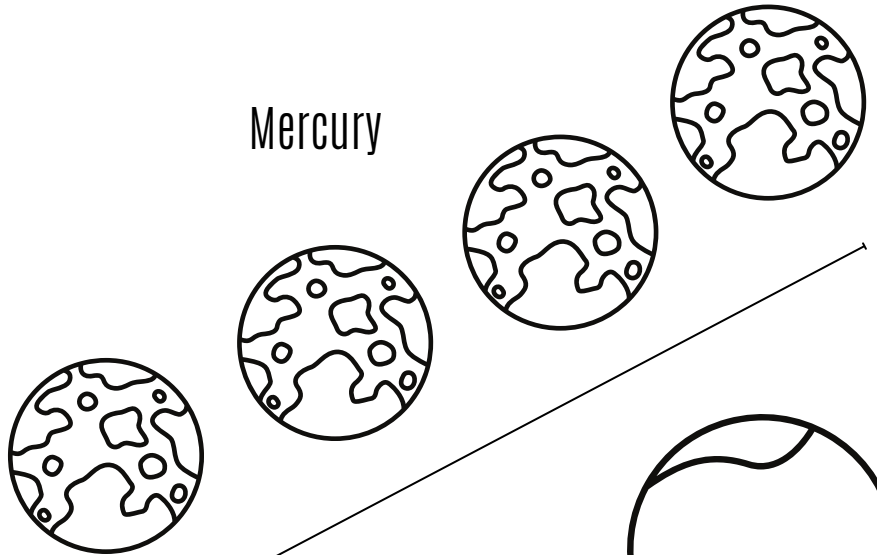

- 1) Color in all the Solar System elements
- 2) Cut out the elements
- 3) Fold them in half
- 4) Apply glue on the half-circle
- 5) You can add string now, or once you have glued the first halves together. Secure the string with tape.
- 6) Adhere to all other halves to complete the sphere.
- 7) Repeat with all other planets and string them on the embroidery loop or similar. All done and ready for display.

Saturn

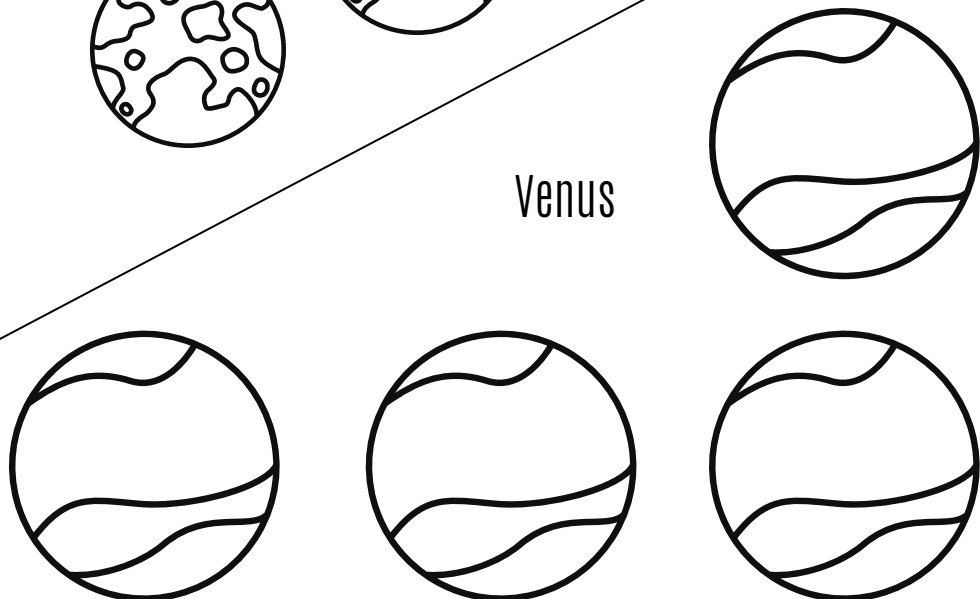

Sun

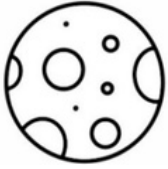

Mercury
